### NOTICE TO REGISTER

Montana statute requires certain violent or sexual offenders to register in this state (MCA 46-23-502(6) and 46-23-502(9)). In addition, the law requires community notice of a registered sex offender's location where public safety is an issue. This law became effective October 1, 1997. The Montana Department of Justice has been working to retrieve and maintain accurate records on all qualified offenders.

Our records indicate you as a sexual offender or appear to meet the criteria for sexual offender status. You were convicted of the following:

**3/27/90      2 counts Unlawful Sexual intercourse with a minor      CA**

The Sexual and Violent Offender Registration Program is retroactive to July 1, 1989 for sexual offenders and October 1, 1995 for violent offenders. Any offender who is sentenced or in the custody or under the supervision of the department of corrections on or after these dates is required to register.

We ask that you register with local law enforcement within **10 days** of receipt of this letter. Failure to do so will result in penalty (MCA 46-23-507).

If your conviction resulted in a deferred sentence, you are required to register during the period of your deferral. Upon completion of a deferred sentence without revocation, you are responsible for having the conviction dismissed from your record. Your name will continue to be on the active registry until the Department of Justice is notified of your dismissal by legal document.

If you have any questions or concerns regarding your status as a sexual or violent offender, contact your local law enforcement agency. Thank you for your assistance.
